

Huntington Ingalls Industries Australia Pty Ltd

Huntington Ingalls Industries Australia Pty Ltd. is an Australian based company that is headquartered in the capital city of Canberra. It currently engages in Business Development efforts in the areas of Workforce Development, Fleet Sustainment, and Shipbuilding Advisory Services. HII Australia is a direct subsidiary of Huntington Ingalls Industries, Inc. who is America's largest military shipbuilding company and a provider of professional services to partners in government and industry. Huntington Ingalls Industries Australia Pty Ltd is a business unit under the Technical Solutions' Fleet Support Group. We are a professional services business that provides practical solutions to a wide variety of government and commercial customers worldwide.

Training Capabilities

Our commitment to training requirements is focused on “Find. Fix. Train.” Our training team focuses on end-to-end solutions. From initial training needs analysis, through courseware development, to instruction of complex training programs, we use a variety of blended solutions.

Huntington Ingalls Industries Australia Pty Ltd provides turnkey solutions, from planning and design to development, packaging, and delivery of the final product:

- Training Planning Process Methodology (TRPPM)
- Front-End Analysis (FEA)
- Navy Training Systems Plan (NTSP)
- Job Duty Task Analysis (JDTA)
- Training Needs Analysis (TNA)
- Content Planning Module (CPM)
- Learning Object Module (LO Module)
- Authoring Instructional Materials (AIM)
- Courseware Design Packages (CDP)
- Instructional Media Design Packages (IMDP)
- Content development
- Job sheet development
- PC simulation
- Tests and assessments
- Formative/Summative evaluations

Fleet Sustainment

Military and maritime industry clients of this group require the support of a total ship systems service contractor to accomplish rapid response alterations and authorized changes to installed shipboard systems and equipment.

Fact sheet

Total Ship systems means a contractor with the experience and in-place capability to support all three of the traditional shipboard operational disciplines:

Hull Machinery and Equipment
Combat Systems
C4ISR

Huntington Ingalls Industries Australia Pty Ltd's provides end-to-end maintenance and modernization solutions for the U.S. military, U.S. Government, and the commercial maritime industry, including:

- Maintenance Planning & Logistics Support
- Modernization Support
- Maintenance and Maintenance Support
- Manufacturing, Fabrication, and Repair

HII Australia's maintenance and modernization expertise includes, among others:

- Field engineers
- Design engineers & drafters
- Electronic technicians and master tradesmen
- Welders
- Logisticians
- Fiber & multi-pin connector technicians

Our 35 years of experience on Aircraft Carriers, Submarines, Surface Ships and small boats encompasses:

- Maintenance for all types of scheduled TYCOM availabilities
- Mid-life Refueling and Complex Overhaul (RCOH)
- New construction (engineering, design, planning, installation, testing)
- Modernization and system upgrades (installation, testing)
- Emergent work – Our "Fly-Away Teams" can mobilize anywhere, anytime
- Condition assessments, ship checks, tag-outs and safe work control
- Training for maintenance or operation of equipment/systems

We have been managing complex shipboard modernization projects since 1981. We offer our clients a large technical workforce with a lean, flexible management organization and program structure designed to provide maximum Program Manager authority; waterfront tested Project Quality Planning, scheduling, control and reporting; demonstrated staffing expertise; proven subcontractor control; and an ingrained ISO 9001:2008-certified Quality Management System.

We do business differently from traditional contractors. We are committed to provide the finest possible solution to any problem regardless of company affiliation. Moving beyond the stove-piped self-interest paradigm, the Fleet Support Group is free to provide the optimal solution to any customer requirement in terms of quality, cost and schedule. We provide value-added service to our clients through our extensive

experience, insight, and ongoing relationships with Government agencies and maritime corporations involved with ship modernization and construction.

Huntington Ingalls Industries Australia Pty Ltd's Fleet Support Group also provides engineering, design, logistics, information technology, data management and training solutions in addition to our maintenance and modernization support services.
