On February 28, The Apprentice School held commencement exercises at Liberty Baptist Church in Hampton. During the ceremony, 157 apprentices graduated including the school's 10,000th graduate, **Sara Ruggles**.

Retired Adm. John C. Harvey Jr., Virginia's secretary of veterans and defense affairs, delivered the commencement address. He asked the graduates to commit to Newport News' mission of "Always Good Ships" "because young sailors will walk aboard the ships you will design and build, and they will bet their lives on the work that you will do.

"There is no one in any industry, anywhere in this great country, who makes a contribution to this nation's defense that is close to the contribution made by any of the great people working here at Huntington Ingalls building these great ships," Harvey said. "That is what this day is really about—how you will sustain that unique and all-important contribution...

...as you continue your careers at Huntington Ingalls' Newport News Shipbuilding. Always good ships? That is a question I believe you must answer."

Of the 157 graduates, seven are military veterans. Sixty-seven completed an optional, advanced program (advanced shipyard operations, cost estimator, modeling and simulation program analyst, and nuclear test technician or production planner). Forty-six earned "honors," eight earned "high honors," and one earned "highest honors" under the Honors Program, which combines academic and craft grades to determine overall performance. Athletic awards were presented to 21 graduates, and 12 completed their required academics with perfect 4.0 grade point averages.

"As I look into the audience, I see the future leaders of our company," said NNS President

**Matt Mulherin.** "Leaders who are more diverse than the team you see up here today. That is a good thing. Your diverse backgrounds, experiences and perspectives are what we need to grow and expand our business and to improve engagement across the entire shipyard."

**Stuart Mitchell Brauer** attained the highest grade point average in combined required academics and crafts, which earned him the Homer L. Ferguson Award.
