CVN 79 “Game Changer” Improves Production Environment

The *John F. Kennedy* (CVN 79) Construction Program recently made facility improvements by installing weather covers over the Buffer Zone Platen in the North Yard. The covers started as a CVN 79 “Game Changer” and will enhance the production environment for shipbuilders during inclement weather and extreme heat.

“One of the primary challenges we face on the Final Assembly Platen and in the Buffer Zone is that our shipbuilders and materials are exposed to the outdoor elements,” said CVN 79 Program Director **Mike Butler**. “Not only will these weather covers provide an indoor work area to protect our employees, but it also further illustrates the company’s commitment to improve our facilities for the *Ford-Class* Carrier Program.”

The new covered 12,000-square-foot production facility offers high-efficiency lighting and utility platforms for welding and production support equipment. The facility houses necessary welding gases and compressed air, and includes two offices for crew meetings and supervisor space. The coverings can move independently from north to south for crane access or when units need to be transported in and out of the facility.

The CVN 79 Program continues to actively implement production game changers like the weather covers in order to shift work off the ship and into a more cost-effective work location like the Final Assembly Platen. For general questions about the CVN 79 “Game Changer” Program, contact **Mark Milius** at 688-9930.

Foreman Honored for Leading Digital Shipbuilding Efforts

X42 Pipe Foreman **David Hodges** was recognized by company leadership on July 26 for becoming the first foreman to complete 1,000 work assignments in SWiMS (Shipyards Work Integrated Management System), a component of Newport News Shipbuilding’s Integrated Digital Shipbuilding initiative. SWiMS is designed to provide foremen with all necessary information to assign work to their crew. Currently, more than 250 foremen have received training.

Hodges has been using SWiMS for nearly a year. “Before SWiMS, I had to use several different programs to assign work to my crew,” he said. “Now, all the information I need is at my fingertips and in one program. Using SWiMS has saved me so much time – at least...”

...an hour a day in which I can devote to helping my crew or finishing other work.”

In honor of his accomplishments, Trade Director **Larry Baranowski** and Director of Digital Shipbuilding **Tim Sweitzer** presented Hodges with a special plaque, shipyard coin and Newport News Shipbuilding hat. “Thank you for stepping up to become a leader in the SWiMS efforts at Newport News Shipbuilding,” said Baranowski. “It’s leaders like you who are helping to move the shipyard’s digital shipbuilding initiatives forward, creating a better, more productive work environment for all.”

Vice President of Manufacturing and Supply Chain Management **Rob Hogan** speaks to attendees at the AME Southeastern Region workshop at Bauer Compressors in Norfolk.

Employees Gain Leadership Insight at AME Workshop

The Southeastern Region of the Association for Manufacturing Excellence (AME) recently sponsored a two-day workshop in Norfolk, Virginia. The theme of the workshop was “Building Leaders to Achieve Perfection: Heartbeat Leaders First” and was led by TMG Inc. The workshop taught attendees about high-performance-team-theory, best practices for engagement, training and development.

Rob Hogan, vice president of Manufacturing and Supply Chain Management, was the keynote speaker for the event. He talked about the beginnings of his career at Newport News Shipbuilding, and discussed the importance of seeking new and innovative opportunities that improve efficiencies, while also improving the tools, equipment and work environments of shipbuilders.

The 2016 AME International Conference will be held October 24-28 in Dallas. NNS is an AME corporate member, and all employees are eligible for a member rate. To learn more, visit www.ame.org or contact **Kim Humphrey** (O51) at kim.humphrey@att.net or call 897-4456.

Congratulations Graduates

On June 30, 13 employees successfully completed a Facilitation 101 course. The course teaches the skills necessary for anyone who leads meetings, coordinates teams or manages projects.

Employees interested in future training sessions can enroll in the Learning Exchange (LX) (keyword search "facilitation") or contact **Cynthia Allen-Whyte** (X51) at 688-2636. Seating is limited to the first 20 registrants. Supervisor permission is required.

The following course dates are scheduled for the remainder of the year: August 10-11 and November 9-10.

STRIDE Open House on August 17

STRIDE (Shipbuilders Together Realizing Inclusion, Diversity and Equality) is hosting a kickoff event on Wednesday, August 17, from 4:30 p.m. to 6:00 p.m. in Rooms 224 and 225 of Building 907 (next to the HII Family Health Center).

Come find out about one of the newest employee resource groups (ERG), enjoy cold treats and play a trivia game to learn more about LGBT history, culture and issues. Walk away with a STRIDE T-shirt and other giveaways. STRIDE Executive Sponsor **Barry Fletcher**, vice president of Nuclear Propulsion, and STRIDE board members will be available to answer questions about the ERG.

Employees interested in joining this new ERG can send an email to STRIDE_ERG@hii-nns.com.

Support National Aircraft Carrier Month

In recognition of the U.S. Navy aircraft carriers' contribution to our nation, U.S. Representative Scott Peters (California) has proposed a House Congressional Resolution to designate November 2016 as "National U.S. Navy Aircraft Carrier Month." Aircraft Carrier Month November 2016 will be a celebration of the accomplishments and contributions of U.S. Navy aircraft carriers, and the men and women who serve aboard them, in defending the freedom of the United States, protecting the security of our nation and our allies, responding to crises, and spurring technological innovation.

Find out more and sign the petition by visiting <http://chn.ge/2ahBiHW>. Employees should view website from a home computer or personal device.

2016 School Tools Drive Begins August 8

This event is not funded by HII or NNS.

New MyTime Tool Coming This Fall

The current Time and Attendance System (TAS) will soon be a thing of the past. TAS has been in use since 1991 and will be replaced this fall with a new MyTime application. The new web-based tool developed by the Payroll and Information Technology departments will include new features to make it easier and more convenient for employees to record time daily.

For starters, when employees are logged onto the NNSCORP system, they will no longer have to enter a User ID or password to enter time. Employees will be able to view personal leave time and also see views of the prior, current and next pay periods. Other features of MyTime include easier navigation, real time validation of charges, descriptions of charges and a drop-down menu for employee Lost time and reason codes.

To access MyTime, employees will be able to use a new desktop icon or save the URL in their browser favorites to open the application. Required MyTime training will begin in September for all supervision and salaried employees.
