A weekly publication of Newport News Shipbuilding

Washington Successfully Delivered to Navy

On May 26, Newport News Shipbuilding successfully delivered *Washington* (SSN 787) to the U.S. Navy after successfully completing its final round of sea trials. The boat earned the highest Figure of Merit score to date of any new construction *Virginia*-class submarine.

Figure of Merit is the scoring method used by the Board of Inspection and Survey (INSURV), a Navy organization whose purpose is to inspect and assess material condition of Navy vessels.

“We are very proud of the ship and its great crew,” said **Matt Needy**, vice president of *Virginia*-Class Submarine Program and Fleet Services. “The score is a reflection of our commitment to quality and follows in the Newport News tradition of ‘always good ships.’ We absolutely recognize our Navy’s increasing need for mission-ready submarines, and we are committed to doing everything we can to support that demand.”

Washington’s construction, which began in September 2011 under a teaming arrangement between Newport News and General Dynamics...

Material Logistics Team Develops Training Program

Nine craftsmen and craftswomen in the Material Logistics Department recently developed and deployed an on-the-job training program for forklift operators. The new program offers forklift operators additional training to the company's required three hour forklift operator course.

The team developed a step-by-step training handbook that includes: a qualification preparation quiz, a trainer/trainee tracking system, a trainee feedback card, a management guide on how to utilize the program, an employee acknowledgment form, and a certificate of completion. Trainers of this new program can work directly with trainees in their work centers to build operator confidence and ensure that the main focus is on safety. Thus far, this program has significantly reduced forklift accidents and is improving the length of time it takes for forklift operators to get certified.

"I couldn't be more proud of this team who committed their time to developing and ensuring that this new training program was a

Front row (L to R): Mary Yarborough (O53), Paul Mikszewski (O53), Smitty Smith (O53) and Michael Fitchett (O53). Back row (L to R): Shawn Potter (O53), Curtis Mayfield (O53), Floyd Foster (O53) and Rodney Thornton (O53). Not pictured: Tom Surles (O53). Photo by Matt Hildreth

success," said Logistics Director **Terry Voltz**. "They built the program around the importance of keeping our forklift operators safe and efficient with their time. We are now approaching the programs one year anniversary and the teams trainees have had zero accidents, and the program has expanded to provide training for re-qualification's and retraining as needed."

After graduation from the program, forklift operators are recognized during their shift huddle by their supervisor or their trainer, who presents them with a framed certificate of completion. To learn more about the Logistics forklift training program, contact **Valerie Smith** (O53) at 380-4928.

Stop by NNS' Booth at Patriotic Festival This Weekend

The Virginia Beach Patriotic Festival is this weekend, June 2-4. Enjoy concerts and a military expo right on the beach. Newport News Shipbuilding's booth will be located on the boardwalk between 15th and 16th street.

Stop by and spin the wheel for great prizes such as beach towels, christening memorabilia and more. Be sure to mention to booth volunteers that you are an NNS employee for a chance to win concert tickets to one of the festival shows.

ISO 9001 Audit Planned: May 30 - June 2

Newport News Shipbuilding will undergo a certification audit of its Quality Management System (QMS) May 30 through June 2. The international standard ISO 9001, Quality Management Systems - Requirements, was revised in 2015, and NNS is certifying to the new revision. The American Bureau of Shipbuilding Quality Evaluations (ABS-QE) will conduct this audit.

Quality Management System Audit: The audit team will review work documents associated with many of the areas of the shipyard, including records for equipment

calibration, training, production control, product testing, internal audits, and corrective and preventive actions. Auditors may also request to randomly interview employees in both nuclear and non-nuclear work areas about work procedures to evaluate their work practices, overall awareness of Newport News' quality management policies and the knowledge of the impact their work has. Employees should answer questions about how they normally accomplish their work.

During the last audit, several people and departments were asked about their work

processes. Managers, general foremen and supervisors should emphasize to employees the importance of having knowledge of their work procedures and working to authorized procedures and drawings. A successful audit will certify the shipyard's ISO 9001 certificate for the Quality Management System for another three years.

NNS was first certified to ISO 9001 in 1993 and has renewed the certification every three years since. For more information, contact **Tony Burger** (O06) at 534-3222.

...Electric Boat, marked the beginning of the VCS program's two-submarines-per-year build plan. The submarine's keel was authenticated in November 2014, and the boat was christened in March 2016.

Watch a special video message or read a letter from Needy congratulating shipbuilders on this accomplishment.

VCS Program Recognizes Shipbuilders for Successful Ship Out of AMR Unit

The Virginia-Class Submarine (VCS) Program held luncheons for approximately 350 craftsmen and craftswomen to recognize them for their hard work in successfully shipping out the auxiliary machinery room (AMR) unit for *Oregon* (SSN 793). VCS leadership was in attendance at each of the three sessions that were held on each shift at the Covered Modular Assembly Facility (CMAF), to thank the shipbuilders for their teamwork in uniting together to make the SSN 793 one step closer to delivery.

When *Oregon's* AMR unit was shipped to General Dynamics Electric Boat, Newport News Shipbuilding's VCS build partner in Connecticut at the beginning of the month, the unit was 99.4 percent complete – the second best AMR unit complete rate on record for the program.

CMAF Superintendent **Gerald Johnson** (X82) congratulated the team, "I appreciate all that you have done to get this unit shipped out successfully. You have overcome challenges, met and exceeded goals, and worked together

CMAF Superintendent **Gerald Johnson** thanks VCS craftsmen for their teamwork in successfully shipping out the AMR unit for *Oregon* (SSN 793). Photo by **Ashley Major**

to help make our program one step closer to delivering freedom of SSN 793. As you leave here today, I encourage you to continue working hard so that we can experience this type of success on every module."

Shipbuilder Recognized for Safety Accomplishment

On May 23, Shipbuilder **Cecil Eley** (X42) was recognized with a Certificate of Recognition from the OSHA, Area Director Stanley J. Dutko, Jr., and Newport News Shipbuilding leadership for 41 years of "accident-free" service to the company and dedication to the health and safety of his peers. To recognize his accomplishment, NNS President **Matt Mulherin** and Vice President of Supply Chain Management **Rob Hogan** presented Eley with a congratulatory letter and commemorative coin.

NNS President **Matt Mulherin**, left, **Cecil Eley**, center, and Vice President of Supply Chain Management **Rob Hogan**. Photo by **John Whalen**

Employees Invited to Attend Town Hall Sessions

Please join Outgoing NNS President **Matt Mulherin** and Incoming President **Jennifer Boykin** for a discussion about their leadership transfer and the future priorities of NNS. Discussions will be held in town hall format and will include a question and answer session. Eight town halls will be held at NNS and additional sessions will be held for employees working offsite; lunch will also be provided.

Employees are invited and asked to attend the event closest to their worksite.

Read a letter from Boykin personally inviting shipbuilders to the town hall session. View the flier for additional information regarding dates, times and locations. The information is also available on the NNS to Go app, which is currently available for download in the Google Play Store and Apple App Store. The flier will also be posted on HII's Facebook page.

DATEBOOK

Update: North Yard Excavation Project

An article regarding parking in the North Yard and additional parking spaces at North Hidens was published in Currents on April 17, 2017. The information below is an update to that communication.

To support construction of the Joint Manufacturing Assembly Facility (JMAF), Facilities has begun its planned excavation project in the North Yard parking area. As previously communicated, the project will be executed in eight phases, as shown on the map. The phases are expected to last through November 2017. The first two phases of construction are currently ongoing. As a result, approximately 300 parking spots are affected during these two phases of the project. As the phases are completed, updates will be provided and parking will gradually be reinstated. *As of May 19, Facilities is gradually opening back affected parking from Phase 1.*

To accommodate the loss of parking, the company has expanded the North Hidens parking lot, located off Warwick Blvd. With the lot expansion, there are now more than 850 parking spaces at North Hidens. The lot is available to all employees. Employees who park in the lot can utilize the FREE Park-and-Ride shuttle service from this lot to and from the shipyard. The shuttle service operates from 5 a.m. to 8 a.m. and 2 p.m. to 5 p.m. Monday through Friday, excluding holidays. As a reminder, when the shuttle service is not operating, employees can use the company's free taxi service, which is available from 7:15 a.m. to 3:10 p.m. and 3:45 p.m. to 1:10 a.m. Monday through Friday and can be scheduled by calling 846-7730.

* The May Long Service Insert will be published in the June 5 edition of Currents

JUNE

Want to lose 5-7 percent of your weight to reduce your risk for Type 2 diabetes? Sign up for "Prevent T2," a free diabetes prevention program developed by the CDC and offered at the HII Family Health Center. Classes run Thursdays from 11 a.m. to noon starting June 1. Contact Wellness Coach Casey Dixon at HIINWellness@quadmedical.com or 327-4200 for more information. *Must be eligible to use health center to participate.*

JUNE 1

HOLA (Hispanic Outreach and Leadership Alliance) will host an interactive event designed to raise awareness about what every day inclusive behaviors look like in the workplace and to challenge attendees to be inclusive leaders. This event is open to all employees. To RSVP, contact Eric Olsen (X51) at 688-1868.

JUNE 1

Library Services (O14) will host an Open House of the Bldg. 903 Library from 9 a.m. to 11 a.m. The library, although new to its Bldg. 903 location, is not new to the shipyard.

Historical documents included in the library date back to the early 1950s. Attend the open house to learn more about the library and services available to employees.

JUNE 2

Reactor Services will host its Summer Golf Classic at Sleepy Hole Golf Course in Suffolk on June 2. The event will have a shotgun start at 1 p.m. with registration beginning at noon. Cost is \$75 per golfer. To RSVP contact BJ Maben (X73) at 380-3957 or Gail Sawyer (X73) at 534-0588. *Make checks payable to Kyra Kimmeth.*

JUNE 9

Support Builder Athletes by sponsoring or participating in the 12th Annual F. Farrell Sanders Memorial Golf Tournament on June 9 at Cypress Creek Golfer's Club. Contact Sarah Gentry (X79) at 329-2449 or via email

JUNE 13

The L.E.A.R.N. Program will host an after-work event with Ken Mahler, vice president of Navy Programs. Mahler will discuss "Navy Programs" in the VASCIC auditorium from 4:30 p.m. to 6:00 p.m. on June 13. The event is open to all employees by reservation only. Sign up on the L.E.A.R.N. website. For questions, contact Tanika Vasquez (O24) at 688-7916 or send an email LEARN@hii-nns.com.

JUNE 15

All employees are invited to attend an Averett University Open House from 3 p.m. to 6 p.m. at The Apprentice School (Alumni Room). Information on the academic programs and the admissions process will be shared. RSVP by June 9 to Andrea Levengood at 644-4709.

JUNE 15

Learn how physical activity and nutrition impact your bone health at the HII Family Health Center's "How To Keep Your Bones Healthy" wellness beacon event on June 15 at 5 p.m. For more information, view the flier, send an email to HIINWellness@quadmedical.com, or call 327-4200. *Must be eligible to use the health center to attend.*

**Newport News
Shipbuilding**

May 30, 2017

Dear Shipbuilders,

This is my first yard-wide communication since it was announced that I'd be serving as your next president of Newport News Shipbuilding. Although my new position doesn't officially begin until July 1, Matt Mulherin and I have begun our transition, and as you have hopefully heard, we'll be holding town hall meetings across the shipyard, starting on June 1.

I wanted to take this opportunity to personally invite you to attend. In these sessions, I'll be discussing my vision for our future, and your role in it. The sessions will stretch out over a couple of weeks to reach every shipbuilder – all 20,000 of you. For those of you on second and third shifts, you'll be one of our first visits. We intentionally scheduled you on "Day One" – or rather "Night One" – of these meetings. For those of you working offsite, we will be scheduling your meetings very soon, so please be on the lookout for those details.

Open and candid communications is extremely important to all of us, and I commit to you that it will be a priority during my tenure. This means two-way communications, where your voice can also be heard. The town hall meetings will kick everything off, and I will continue to meet in person with groups of shipbuilders on an ongoing basis. I will also use other formats such as social media to help in this effort, and I am currently in the process of setting up ways for you to provide feedback directly to me.

Thank you for your support during this transition, and for your great work each day. Serving as the 20th president of Newport News Shipbuilding, and the first woman to hold this position, is a responsibility that I am humbled, honored and ready to take on.

I look forward to starting this new journey with all of you, and in building a very bright future together. So, let's get started!

All the best,

Jennifer Boykin
