NNS Hosts Third Annual Military Immersion Program

Talent Acquisition and Production and Maintenance Training hosted its third annual Military Immersion program for active duty career counselors and senior leaders from various military branches across Hampton Roads. Twelve counselors participated in this year's program and spent four days at Newport News Shipbuilding getting an inside look at shipyard operations to better support service members who are transitioning out of the military and into civilian careers.

Throughout the week, counselors had a variety of experiences both in and outside of the yard, including hands-on demonstrations, tours of The Apprentice School, presentations about employee resources and open discussions with company leadership.

"I now have a better understanding of what operations go on here at the shipyard," said Air Force Master Sergeant Mitchell Scott, who was inspired not only by the ships built at NNS, but also by the people who build them. "We met many shipbuilders who accepted a job at the shipyard with the mindset that it was only a temporary position, but those same people have gone on to work here for decades. It's very apparent that NNS fosters a sense of camaraderie that we as military members deeply appreciate."

Town Hall to be Held at Naval Station Norfolk June 20

Newport News Shipbuilding employees currently working at Naval Station Norfolk are invited to join Outgoing NNS President **Matt Mulherin** and Incoming President **Jennifer Boykin** for a town hall at 11 a.m. on Tuesday, June 20. The session will be held in the hangar bay on board USS *Abraham Lincoln* (CVN 72) and lunch will be provided. Mulherin and Boykin will discuss their leadership transfer and the future priorities of NNS and then hold a question and answer session. Supervisors should allow their employees to walk to the event at 10:45 a.m. View the flier for additional information. As a reminder, normal PPE (personal protective equipment) rules apply.

Shipbuilders Volunteer at PrideFest

Newport News Shipbuilding was a presenting sponsor of this year's Hampton Roads PrideFest at Town Point Park June 17. NNS employees, members of the STRIDE (Shipbuilders Together Recognizing Inclusion, Diversity and Equality) Employee Resource Group, and several members of the senior leadership team manned the company's tent during the event. Volunteers assisted with the prize wheel and educated guests about NNS' inclusion and diversity (I&D) efforts.

"It was great to see the support of shipyard employees, non-shipyard employees, and the Navy at the NNS pride tent this year," said **Paul England** (X84). "Everyone had a great time!"

ERGs Present NNS President with Special Plaque

On June 16, representatives from the company's Employee Resource Groups (ERG) attended the Inclusion and Diversity (I&D) Council Meeting to present Newport News Shipbuilding President **Matt Mulherin** with a special plaque in honor of his support, dedication and leadership in promoting an inclusive and diverse workplace throughout his tenure. NNS' I&D Council is comprised of senior leaders across the company and currently led by Mulherin.

"Throughout Mr. Mulherin's time as president, he has truly been dedicated to ensuring that the shipyard is a good workplace for all shipbuilders," said **Nishon Carter** (X32), president of the African American Shipbuilders Association. "Because of his support, ERGs have a solid platform and presence in the company. His support has boosted ERG membership, management engagement, and the ERGs

have been able to impact the company in various ways. On behalf of all ERGs – We are sincerely grateful for his efforts and will always remember his dedication. We wish him all of the happiness in retirement."

When Mulherin retires, Incoming President **Jennifer Boykin** will lead the I&D Council.

For Navy Counselor **Katie Whitestone**, the experience was eye-opening.

"After being in the Navy and living on a ship, the opportunity to see both the process and execution of the construction on these vessels was amazing," said Whitestone. "Even more impressive was the evident commitment and love for their work that the shipbuilders displayed."

Sultan Camp (O20), who led this year's program, would like to see this program expand to include more counselors in years to come.

"This program creates a pipeline for both NNS and veterans that establishes us as an employer of choice for our service members," said Camp. "It also allows a relationship to form between military personnel and a company that is very much committed to hiring veterans."

Apprentice School's Bass Fishing Club Places in Tournament

The Apprentice School Bass Fishing Club participated in the Yeti Collegiate Northern Division Tournament at Smith Mountain Lake April 29. The club had two boats competing in the fishing tournament, which included 87 schools from around the country, including Christopher Newport University, Virginia Tech, Penn State and Ohio State.

Apprentices **Nick White** (X42), **Sean Coast** (X42), **Kitt Moger** (X43) and **Hunter Atkins** (X31) competed in teams of two. Moger and Atkins placed fourth in the tournament, winning \$500 for the club and qualifying for the 2018 FLW College National Championship.

"We were up against some tough competitors, so it feels great to have finished in the top 10," said Moger. "We're really looking forward to nationals."

Coach **Rob Uzzle** (X51) is proud of the team's hard work: "This team is extremely passionate, dedicated and hardworking. Their performance at Smith Mountain Lake was very impressive, and I'm excited to watch these guys continue to compete."

The club will be competing in another regional tournament in late July in upstate New York. Stay up to date on The Apprentice School Bass Team on their

Check Out June's Edition of "Hot Shots"

"Hot Shots" is a collection of photos taken from around Newport News Shipbuilding by Staff Photographers. June's edition features new buildings in the North Yard, shipbuilders at work and USS *Abraham Lincoln* (CVN 72) departing for sea trials. View the collection at nns.huntingtoningalls.com/photos.

LGBT Pride Month Feature: Heather Rugnetta

Newport News Shipbuilding will recognize LGBT Pride Month throughout the month of June. This year's theme is, "Our Pride is Building" and four versions of an awareness poster have been distributed to worksites across the shipyard; each poster features one NNS shipbuilder. For the remainder of June, a question and answer feature highlighting each shipbuilder will be published in *Currents* and on the NNS to Go app.

This week's spotlight is on Nuclear Engineer Heather Rugnetta (E86). She has worked at NNS for 13 years and is currently the chair for the company's STRIDE (Shipbuilders Together Realizing Inclusion, Diversity and Equality) employee resource group.

Why is LGBT Pride Month important to you?

The month serves as a reminder of how far we've come as an LGBT community. Prior to recognition of this month, I was vaguely aware that there was discrimination, but I wasn't aware of the level. As an LGBT ally, I feel that I have an important role because I don't have a "dog in the fight." Everyone deserves to feel like they're safe – mentally and physically – in the community and in the work place. People tend to fear the unknown and LGBT falls into the "unknown" category because it's been treated as taboo for so long. By educating, discussing and spreading awareness about LGBT, we can remove the "unknown" and make us all aware that things we do or say can be hurtful.

What positive impacts do you think STRIDE has had on the company?

STRIDE has allowed those who have self-identified as LGBT in the shipyard, as well as allies, to come together as a community. LGBT can be isolating and STRIDE seeks to provide a group that understands this, while not excluding individuals who want to understand. All employees are welcome to join.

What does the company's theme, "Our Pride is Building" mean to you?

I hope to turn the quintessential ideas of who a shipbuilder is or looks like on its head and I think STRIDE and the other employee resource groups (ERGs) can accomplish that. We are all shipbuilders and everyone deserves to be respected. The role of ERGs is to acknowledge the things that make us different and turn them into the things that should be embraced. I'd like to see the shipyard listed as an equality employer, on the Corporate Equality Index.

UPDATE: Phased Construction in the North Yard

As previously communicated, Facilities has begun excavations along the North Yard parking area in support of construction of the Joint Manufacturing Assembly Facility (JMAF). Throughout the duration of the project, which is expected to last through November 2017, parking in the following areas will be temporarily affected: aqua, bus, motorcycle, handicap, second shift parking lot and reserved spaces outside of Bldg. 1744. The excavation will occur in phases, as shown on the map above. As phases are completed, parking will gradually be reinstated as soon as possible to minimize the impact to parking. Updates will be communicated in *Currents*, MyNNS, and the NNS to Go app.

Recent updates include:

- Phase 1A and 2A of construction on the communication duct bank will remain unavailable. Approximately 30 spaces are temporarily affected.
- Phase 1B and 1C has been reopened and is available for employee parking.
- Phase 3 of construction on the electrical bank has begun. Second shift parking in this area (nine rows) will be relocated; the new area will be roped off specifically for second shift employees. Signs posted on decal stands will be posted to designate the area. Bus parking will remain in the same location, but will be reduced to three rows. Facilities is expecting approximately 250 to 300 aqua spaces to be temporarily affected during this phase only.

As a reminder, in an effort to offset the loss of employee parking, the company has expanded the North Hidens parking lot. North Hidens is located off Warwick Blvd. at 63rd Street and is available to all Shipbuilders and contractors. The company provides a free Park-and-Ride shuttle service to and from the shipyard to this lot. Shuttle service will be expanded as necessary to the Park-and-Ride route to accommodate the increase in riders. The shuttle service operates from 5 a.m. to 12 p.m. and 12:30 p.m. to 6:30 p.m. Monday through Friday, as well as from midnight to 1:30 a.m. excluding holidays. When the shuttle service is not operating, employees can use the company's free taxi service, which is available from 7:15 a.m. to 3:10 p.m. and 3:45 p.m. to 1:10 a.m. Monday through Friday and can be scheduled by calling 846-7730.

For questions regarding construction in the North Yard parking area, please contact **Paul King** (O41) at 380-4605.

PEER Program; Presentation: "Driving a Culture of Change"

The PEER Program is a two year rotational program designed to give employees insight into four different areas of the company for six month periods.

During the final rotation of the PEER Program, employees participating in the program come together to develop and present a capstone project. Cohort 5 was given the opportunity to independently choose their topic and content for the presentation. Collectively, the 16 employees in the cohort selected to title their presentation, "Driving a Culture of Change." These shipbuilders used the opportunity to share their experiences in a combined 41 rotational stops and communicate how they personally were able to affect change. Based on the challenges participants observed, the presentation also includes some suggestions for the future.

The program is open to salaried, individual contributors. Employees who meet this criteria and are interested in applying for the program should visit the Engineering and Design (E01) website on MyNNS. For questions about the program, contact PEER Program Manager **Wayne Potter** (E08) at 688-1274.
