

Technology Drives Latest Kennedy Milestone

An improved build strategy, which includes the use of digital technologies to improve efficiencies, has allowed Newport News Shipbuilding to reach another milestone in the construction of the aircraft carrier *John F. Kennedy* (CVN 79).

Shipbuilders on Friday, Sept. 28, lowered the final piece of the ship's underwater hull into place. The joining of the 726-ton lower bow, which includes the distinctive bulbous feature, completes the section of the ship below the waterline and extends the nuclear-powered warship an additional 122 feet.

At 1,096 feet, *Kennedy's* hull is longer than three football fields.

The lower bow is more than 64 feet tall and 54 feet wide and is one of the heaviest planned steel structures, known as superlifts, to be placed on the ship. The unit consists of 84,000 square feet of tanks and chain lockers.

"This superlift completes the underwater hull of the ship and completes the erection of all of the ship's structures from main deck down," said **Lucas Hicks**, vice president of CVN 79 Carrier Construction. "The lower bow superlift is another good example of how the use of technology is driving how we building the next generation aircraft carrier.

"This brings us one step closer to launching the ship next year," Hicks said.

More than 3,000 shipbuilders and 2,000 suppliers from across the country are supporting the construction of *Kennedy*. The christening is planned for late 2019. Watch a video of the lower bow superlift on MyNNS or the NNS to Go app.

USS *Indiana* (SSN 789) was commissioned Saturday, Sept. 29, in Florida.

Freedom Delivered: Navy Commissions USS *Indiana* (SSN 789)

The U.S. Navy commissioned the 16th *Virginia*-class submarine – USS *Indiana* (SSN 789) – Saturday, Sept. 29, at Cape Canaveral Air Force Station in Florida.

Freedom Delivered: Navy Commissions USS *Indiana* (SSN 789)

CONTINUED FROM PG 1

During the ceremony, Ship's Sponsor Diane Donald gave the order for sailors to "man our ship and bring her to life," in a time-honored Navy tradition.

Newport News Shipbuilding President **Jennifer Boykin** spoke during the ceremony, representing the shipbuilders at NNS who worked to construct *Indiana*. "These proud Americans understand that what they do every day contributes to something much greater than themselves. They pour their hearts and their souls into their work," she said.

Indiana – built at NNS and General Dynamics Electric Boat – was christened at NNS in April 2017.

Shipbuilders gathered at The Rock to celebrate the first Newport News Day. Photo by John Whalen

Shipbuilders Celebrate Inaugural Newport News Day

Shipbuilders met at The Rock Sept. 21 to celebrate Newport News Day. They wore blue to unite as one and show shipbuilder pride. The celebration was planned by the Pride In What We Do team.

More Newport News Day celebrations will be held in the future at different locations around the shipyard. Check the Datebook section of *Currents* for more information about future celebrations.

Disability Awareness Month: Ian Sandstrum

Newport News Shipbuilding is recognizing Disability Awareness Month in October. As part of NNS' company-wide Inclusion and Diversity campaign, four employees are featured on posters recognizing the month. Articles about these shipbuilders will be published in Currents, the NNS to Go app, MyNNS and on social media each week.

Ian Sandstrum (E27) was working in construction, serving in the U.S. Army Reserve and taking classes toward a degree in engineering when his life changed in the blink of an eye.

A 2008 motorcycle accident left him paralyzed from the chest down with limited arm movement and no hand function. "Adjusting to life in a wheelchair after being an able-bodied person was an extremely long process," he said. "I had to get past the 'what ifs' and thinking about what my life would have been like had I not been in an accident and instead focus on my future and getting back into the workforce."

Sandstrum spent more than a year in physical and occupational therapy. He later returned to school, earning an associate degree in engineering from Northern Virginia Community College and enrolling at Old Dominion University, where he continues to work toward a bachelor's degree in mechanical engineering.

In February 2017, Sandstrum began his career at Newport News Shipbuilding as a designer. "The shipyard is extremely accommodating toward people with disabilities. All of the people I've dealt with have looked past my disability and seen

my potential, my work ethic and the way I present myself," he said. "At the same time, the company has provided adaptations like a special desk and computer hardware and software to make my work environment better so that I can be more productive."

Sandstrum hopes that Disability Awareness Month inspires and encourages people to look beyond the outward appearances of those with disabilities and to see them as just another person.

"People who don't know me may just see my disability and the fact that I'm in a wheelchair. If they got to know me, they would learn that I haven't changed my goals, how I act or how I plan to live my life," he said. "Disabilities can restrict certain activities, but you can still be productive in life, work and personal growth. It's important to keep a positive attitude, strive to better yourself and never give up."

View Sandstrom's poster on MyNNS or the NNS to Go app. Shipbuilders interested in sharing their story as part of NNS' Inclusion and Diversity campaign, should visit nns.huntingtoningalls.com/id-campaign-2018.

NOTICE: Communications to Stop Publishing Classifieds

Following the Oct. 8 edition of *Currents*, Communications will no longer publish Employee Classifieds. When Communications first launched the service, it was meant to provide a convenient resource for shipbuilders to buy and sell items. At the time, there were not as many options as there are today to post and sell items. After evaluating the time and effort it takes to administer this service, the division has made a business decision to discontinue providing the service in-house.

Shipbuilders who would like to buy or sell items are encouraged to use other public advertising options, such as:

- Public, local “buy and sell” social media groups (commonly known as “Trash and Treasure” groups)
- Consumer-to-consumer sales sites
- Buy and sell phone applications

Shipbuilders are encouraged to use any safety features these apps and websites may offer. When buying or selling items via these channels, always meet in a safe and well-lit public area, don't use personal contact information or reveal any personal information, and tell someone where you are going and why.

Email communications@hii-nns.com for questions or comments about Classifieds.

On-the-Spot Ethics Awards Announced

The following shipbuilders were recently honored with Level Two On-the-Spot Ethics Awards: **Khalia Hart** (O19), **Gregory Lowe** (X42), **I'eisha Middleton** (X67), **Marvin Fogg Sr.** (X42), **Catherine Byrdson** (X36), **Derrick Johnson** (O46), **Warfield Whitehead Jr.** (O46), **Tabitha Revill** (O46), **Jason Halter** (O38), **Geoffrey W. Bryant** (X84), **Dana Zarichny** (O19), **Quinton Bethea Sr.** (X42), **Paul Hardister** (X47) and **Troy Watson** (X11).

HOLA to Host Hispanic Heritage Month Celebration

Shipbuilders have likely noticed the posters popping up around Newport News Shipbuilding for Hispanic Heritage Month. However, some may be curious about its Sept. 15 to Oct. 15 timeframe.

The monthlong commemoration coincides with Independence Day celebrations of various Latin American countries and acknowledges the contributions of Americans whose ancestors hail from Spain, Mexico, the Caribbean and Central and South America.

The Hispanic Outreach and Leadership Alliance (HOLA) employee resource group is hosting a Hispanic Heritage Month celebration from 4:30 until 6 p.m. on Wednesday, Oct. 10, in the VASCIC auditorium. Richard Montañez, the creator of the Flamin' Hot line of products, will be the featured speaker. The son of immigrants, Montañez started his career at PepsiCo as a janitor and worked his way up to vice president.

All shipbuilders are welcome to attend the event and can RSVP online. For more information, contact **Sam Byrne** (E14) at 688-2096 or **Marisol Liceaga** (E83) at 688-2285.

NNS Recognized for Commitment to Veterans

Virginia Gov. Ralph Northam recognized Newport News Shipbuilding for its ongoing commitment to creating employment opportunities for military veterans during the 2018 Virginia Workforce Conference last week.

NNS received the Virginia Values Veterans (V3) Phoenix Award for providing comprehensive support to a veteran employed by a company or a veteran job seeker. **Ian Sandstrum** (E27) accepted the award on behalf of the company.

“All Virginians have the responsibility to serve these veterans as they have served us,” Northam said. See the governor's press release for more information.

Onsite Mammograms Available

Chesapeake Regional Healthcare's mobile mammography unit will be onsite every Monday in October at the HII Family Health Center to offer free annual screening mammograms for Newport News Shipbuilding employees. Screenings are offered to women age 40 and older.

The unit will be available during the following times:

- Oct. 1: 8 a.m. – 4 p.m.
- Oct. 8: 10 a.m. – 6 p.m.
- Oct. 15: 8 a.m. – 4 p.m.
- Oct. 22: 10 a.m. – 6 p.m.
- Oct. 29: 8 a.m. – 4 p.m.

To schedule a mammogram during one of the times listed above, call (757) 312-6400 or visit www.chesapeakemammo.com.

Walk-ins are also welcome. Shipbuilders should bring their medical insurance card and photo ID to their appointment.

Christopher Annette, left, Christopher Locey and Michael Taylor show off the Fire Department's new mini emergency response vehicle. Photo by Matt Hildreth

Fire Department Debuts New Vehicle

Earlier this month, the Newport News Shipbuilding Fire Department introduced a new vehicle to its fleet. It's not a fire truck or an ambulance, but a mini emergency response vehicle (MERV) instead.

"It's a very functional vehicle to be used inside the shipyard," said NNS Fire Chief **Mark McTheny**. "It gives us access to locations that we cannot get to with our standard vehicles."

The MERV is similar to other utility vehicles used throughout NNS and has the ability to carry a stretcher to transport patients from an incident site to a waiting ambulance. Since it is diesel powered, the MERV can travel onboard vessels to support both medical and fire-related emergencies.

Firefighters will use the vehicle for day-to-day tasks like traveling through the yard to inspect buildings and to service temporary fire equipment. The MERV will also be used during large ceremonies at NNS like christenings and even community events like 5K races because it is easier to maneuver through large crowds compared with a full-size ambulance.

"We have looked at the best ways to support the shipbuilders, and this is one way we can improve our service in both the day-to-day operations and during special events," McTheny said. "It will help us provide the best medical care that we possibly can."

Hispanic Heritage Month: Jose Vasquez Jr.

Newport News Shipbuilding is celebrating Hispanic Heritage Month, Sept. 15-Oct. 15. As part of NNS' company-wide Inclusion and Diversity campaign, four employees are featured on posters recognizing the month. Articles about these shipbuilders will be published in Currents, the NNS to Go app, MyNNS and on social media each week.

Jose Vasquez Jr. (K93) views Hispanic Heritage Month as an opportunity to share and learn.

"Latino countries all have distinct cultures, music and food. Hispanic Heritage Month allows us to display all of the separate cultures that people may not know about and foster more understanding," he said. "It also allows us to celebrate the many accomplishments and contributions of Latinos across the United States."

Vasquez, a Miami native of Dominican American descent, came to Newport News Shipbuilding in 2017. As a quality engineer, he works to ensure trade departments are in compliance with procedures. The work is challenging, but Vasquez enjoys learning new things every day.

"I came here because I wanted a job that was meaningful and allowed me to contribute to society," he said. "I thought that coming here – where we build submarines and aircraft carriers to protect our nation – was one of the best ways to give back and use my degree for good."

Vasquez said becoming involved with the Hispanic Outreach and Leadership Alliance (HOLA) employee resource group at NNS helped lessen the culture shock of moving from Florida to Virginia, which has a considerably smaller Latino community. "It's a good resource, especially if you're fairly new to the company or don't have family or friends in the area. It's a good way to meet new people. They're willing to help and make the transition as easy as possible."

As the nation celebrates Hispanic Heritage Month, Vasquez said it's important for shipbuilders to recognize that everyone – no matter their background – plays an important role.

"Not everyone is the same. You have to respect the fact that people are going to have different opinions and come from different cultures," he said. "You also have

to understand that being different doesn't meant that someone can't have good ideas. If you allow them to be themselves, you give them the opportunity to display their ideas and talents, which can improve things for everyone."

View Vasquez's poster on MyNNS or the NNS to Go app. Shipbuilders interested in sharing their story as part of NNS' Inclusion and Diversity campaign, should visit nns.huntingtoningalls.com/id-campaign-2018.

AROUND THE YARD

WiSE Woman Award Recipients Recognized

Women in Shipbuilding Enterprise (WiSE) presented "WiSE Woman" awards to the following employees during the third quarter of 2018:

- **Sharesse Davis** (K75) was recognized for employee engagement in July.
- **Pamela Setterholm** (E46) was recognized for employee engagement in August.
- **Carolyn Tucker** (O37) was recognized for commendable and sustained performance in September.

WiSE presents this award each month and winners' names are published in *Currents* on a quarterly basis. For more information about the program, visit the WiSE Woman website on MyNNS or contact **Janice Boone** (E16). To submit a nomination, complete the WiSE Woman Nomination Form.

CVN 79 engagement champions hand out ice pops to shipbuilders in the CVN 79 program. Photo by Matt Hildreth

CVN 79 Engagement Champions Say Farewell to Summer with Ice Pops

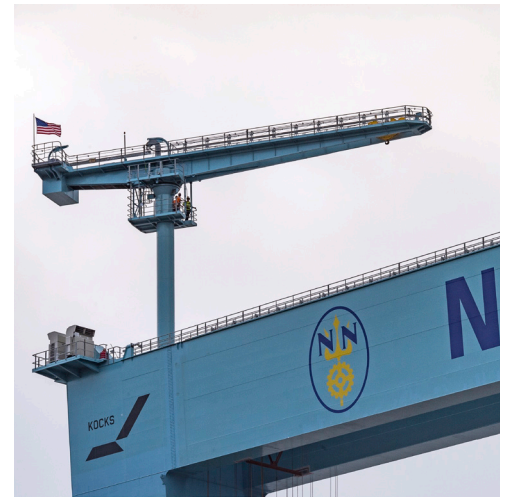

John F. Kennedy (CVN 79) engagement champions recently handed out 3,000 ice pops to employees in the North Yard. The CVN 79 Engagement Champion team, a subset of the Operations Division's new Engagement Champion Program, is made up of about 50 shipbuilders including craftsmen and craftswomen, foremen, construction supervisors and representatives

from the program office. Their mission is to give all employees a voice and to improve overall communication throughout the CVN 79 Program.

K47/X31 General Foreman **Brian Holub** and K47/X33 Lead General Foreman **Tony Wilkerson**, are the CVN 79 Engagement Champion lead and co-lead. "The opportunity to lead this team is very rewarding. Passing popsicles out to the men and women working hard on the CVN 79 Program created a lot of smiles today and that was what we set out to accomplish," said Holub and Wilkerson.

Lucas Hicks, vice president of CVN 79 Carrier Construction, is fully supportive of this initiative and encourages all engagement champions and employees to think outside of the box when it comes to improving engagement.

"The CVN 79 Engagement Champion team has established several focus groups to improve on areas throughout our program such as, communication, employee recognition and quality of life. These teams are eager to get started and have innovative ideas. They are fully committed to this effort and are all in," Hicks said.

The newly placed maintenance support crane sits atop Newport News Shipbuilding's 315-metric-ton Goliath gantry crane. Photo by John Whalen

New Crane Structurally Complete

Newport News Shipbuilding's new 315-metric-ton Goliath gantry crane is now structurally complete.

On Tuesday, Sept. 25, crews performed a 47-ton lift to place the maintenance support crane on top of the main girders. This milestone is often referred to as the official "topping out," and signifies the last lift needed to finalize the Goliath gantry's structure.

The maintenance support crane allows maintenance work to take place on the trolleys and machinery above the main crane. Its maximum lifting capacity is 15 tons.

Additional testing of the entire structure will continue into early next year. The 315-metric-ton crane is expected to be operational in the second quarter of 2019. Watch a video of the lift on MyNNS.

PEER Program Accepting Nominations

The Professional Enhancement and Enrichment Rotation (PEER) Program is accepting nominations and preparing to select the next cohort to start rotating in January.

The PEER Program is a two-year rotation program for salaried, individual contributors. It includes four different rotations in six-month cycles. Development is based on workshop experiences, networking, collaboration, mentoring and diverse rotation experiences with more than 150 host department opportunities. Learn more about the PEER Program by attending an upcoming Lunch and Learn or open house event.

DATEBOOK

OCTOBER 2

The Veterans Employee Resource Group (VERG) is hosting a birthday celebration for the U.S. Air Force from noon until 12:30 at Applebee's (Bldg. 227). For more information, contact **Adam Kringer** (X84) at 380-4286.

OCTOBER 2

L.E.A.R.N. will host an after-work presentation in the VASCIC auditorium with **Derek Jenkins**, director of Security, from 4:30 to 6 p.m. on "How to be Safe at Work and at Home." The event is open to all employees by reservation only. Sign up on the L.E.A.R.N. website. For additional information, contact **Tanika Vasquez** (E06) at 688-7916 or **Helen Dennie** (O28) at 380-4831 or email LEARN@hii-nns.com.

OCTOBER 5

The In-Service Carrier Program will host its 15th Annual Aircraft Carrier Invitational Golf Tournament at Ford's Colony Country Club. The event is a four-man Captain's Choice format starting at 1 p.m. with registration beginning at 11 a.m. The cost of \$500 per team includes golf, driving range, welcome gifts and dinner. Proceeds from the event will benefit the USO. Contact **Bruce Roberts** (K69) at 380-4964 to register.

OCTOBER 8 & 12

Newport News Shipbuilding Contracts and Pricing Division will host Submarine Cost Estimating Info Sessions from 2:30 until 3:30 p.m. on Oct. 8 and from 7:30 until 8:30 a.m. on Oct. 12 in the Supplemental Modular Outfitting Facility (Second Floor Conference Room). The Contracts and Pricing team will present information about their work, discuss their role in the shipbuilding process and share career opportunities in cost estimating. To apply for a position in cost estimating, visit buildyourcareer.com and search for positions in the "Current Employees" portal.

OCTOBER 11

The "Spear and Gear" Toastmasters Club will host a meeting from 4:30 until 5:30 p.m. at The Apprentice School (Bldg. 1919, Room 247). The event is open to all Newport News Shipbuilding employees and no RSVP is required. The event will provide a forum for employees to learn how to become more effective communicators and leaders. For more information, contact **Jason Paquette** (E83) at 534-2770.

OCTOBER 12

The Veterans Employee Resource Group (VERG) is hosting a birthday celebration for the U.S. Navy from noon until 12:30 at Applebee's (Bldg. 227). For more information, contact **Adam Kringer** (X84) at 380-4286.

OCTOBER 16

The Peninsula Engineers Council and ASM will hold a joint society dinner meeting of all engineering societies from 5:00 until 8:30 p.m. at Revolution Golf Grill in Williamsburg. The speakers will be historians John Quarstein and Nathan Vernon Madison. All engineers and guests are welcome. To RSVP and pay for this event, visit the the ASM website. Contact **Dave Conley** (O31) at 688-0250 for more information.

OCTOBER 20 & NOVEMBER 3

Newport News Shipbuilding is a sponsor of the Hampton Roads Heart Walk. The Peninsula walk is Oct. 20 at Peninsula Town Center in Hampton, and the Southside walk is Nov. 3 at Mount Trashmore in Virginia Beach. Register at www.HamptonRoadsHeartWalk.org or become an NNS team lead. For more information, visit the NNS Heart Walk website on MyNNS or contact **Amy McDonald** (X71) at 688-6489.

OCTOBER 21

The Mariners Club is hosting its annual fall golf tournament at Kingsmill's River Course. Start the day with a breakfast buffet at 7:30 a.m. Tee-off is at 9:30 a.m. For additional information, see the flier or contact **Femi Audifferen** (X76) at 688-3843.

OCTOBER 23

What's better for your wallet, renting or buying? Find out at a SmartPath class on renting versus homeownership. Classes are offered from noon to 1 p.m. in Bldg. 520-6 (James River Room) and from 4:30 to 5:30 p.m. in the VASCIC auditorium. Email BeWell@hii-co.com to register for your preferred class time or ask your foreman to register you. Management-approved PTO/flex is required during scheduled work hours.

Pat Krystyn, academic instructor at The Apprentice School and faculty adviser for the chapter, left, and Apprentice School Director of Education **Latitia McCane**, right, stand with Apprentice **Kari Grice** (X42) as she receives a certificate signifying her SLS induction.

Apprentice School SLS Chapter Holds First Induction Ceremony

The Apprentice School became an independent chapter of The Society of Leadership and Success (SLS) on June 6.

The Apprentice School SLS chapter recently held its inaugural induction ceremony. To become SLS members, apprentices had to complete a nationally sanctioned leadership development program that included participation in a chapter orientation meeting and leadership training day; three nationally broadcasted leadership discussions; and three success networking team events.

For more information about The Apprentice School SLS chapter and the national organization, visit www.nsls.org.

SEEKING SHIPBUILDERS

Visit www.buildyourcareer.com to search for the latest NNS job openings.

Job Title	Req Number	Dept.	Location
Electrical Engineer 3	22088BR	E44	Newport News
Electrical Engineer 3	24130BR	E44	Newport News
iDS Systems Engineer - Senior Level 3	23065BR	X47	Newport News
Contract Administrator 3	22026BR	O19	Newport News

Employees are encouraged to use the "Current HII Employees" portal to apply. The company continues to offer cash bonus awards for referrals to select positions, visit www.huntingtoningalls.com/careers/refer-a-friend for more information.

APPRENTICE SCHOOL STORE CLOSED THIS WEEK

The Apprentice School Store will be closed the week of Oct. 2-4 to stock new fall items. The store will reopen with normal hours Tuesday, Oct. 9.
