

Andy Green

Executive Vice President and President, Technical Solutions

Andy Green is executive vice president of Huntington Ingalls Industries and president of HII's Technical Solutions division. Named to this position in 2016, he is responsible for HII's national security solutions in the areas of intelligence, surveillance and reconnaissance (ISR); cyber and electronic warfare; live, virtual and constructive (LVC) solutions; fleet maintenance; unmanned systems, and nuclear and environmental services.

Green previously served as corporate vice president of strategy and corporate development and as vice president, component manufacturing, where he directed the manufacture of major components used in the construction of aircraft carriers and submarines. He joined HII in 2011 as corporate vice president of investor relations, where he was responsible for the company's relationships with Wall Street analysts and shareholders.

Before joining HII, Green served as vice president of investor relations at Celanese Corp. and was a managing director of high-yield capital markets at Wells Fargo, where he covered the defense and aerospace industry.

Prior to attending graduate school, Green was a manufacturing plant engineer at Eaton Corp. He is also a qualified nuclear engineer officer in the U.S. Navy, having served aboard the ballistic missile submarine USS *Tecumseh* (SSBN 628).

He holds a bachelor's degree in systems engineering from the United States Naval Academy and an MBA from Duke University. Green serves on the board of directors of the Professional Services Council.

HII is a global engineering and defense technologies provider. With a 135-year history of trusted partnerships in advancing U.S. national security, HII delivers critical capabilities ranging from the most powerful and survivable naval ships ever built, to unmanned systems, ISR and AI/ML analytics. HII leads the industry in mission-driven solutions that support and enable a networked, all-domain force. Headquartered in Virginia, HII's skilled workforce is 44,000 strong.
