

### About Huntington Ingalls Industries

Huntington Ingalls Industries is America's largest military shipbuilding company and a provider of professional services to partners in government and industry. For more than a century, HII's Newport News and Ingalls shipbuilding divisions in Virginia and Mississippi have built more ships in more ship classes than any other U.S. naval shipbuilder. HII's Technical Solutions division supports national security missions around the globe with unmanned systems, nuclear and environmental services, and defense and federal solutions. Headquartered in Newport News, Virginia, HII employs more than 42,000 people operating both domestically and internationally. For more information, visit [www.huntingtoningalls.com](http://www.huntingtoningalls.com).

Watch our video to find out how the CCoE is transforming HII.

Huntington Ingalls Industries' (HII) Cloud Center of Excellence (CCoE) transforms business operations for seamless collaboration, improved efficiencies and software development tools that enable rapid innovation.

### ➡ On-Demand Cloud Services Through AWS

HII's Technical Solutions division has partnered with Amazon Web Services (AWS) to provide secure, centralized cloud services for customized, integrated solutions that achieve mission success while ensuring best pricing for real bottom-line savings.

- Seamless collaboration with customers and partners
- Flexible, elastic and scalable solutions
- Accelerated implementation

### ➡ Cybersecurity Tools for Hardened Systems

The CCoE ensures compliance with stringent cybersecurity protocols for systems that can't fail.

- DFAR 252.204-7012/  
NIST 800-171 compliant
- Cloud access point
- Endpoint protection
- Vulnerability scanning
- Audit logging
- Multi-factor authentication
- Patching
- Automation with infrastructure as code
- Threat detection

### ➡ Software Factory

Our skilled team of experts actively collaborates with customers and partners from concept to implementation to build solutions that solve tough challenges.

- DevSecOps
- Project/development planning and management
- Code storage and management
- Team collaboration
- Knowledge management
- Code quality/security
- Artifact storage and management
- Continuous integration/continuous deployment (CI/CD)
